## The Real Classics

Here is the foundation of all ragtime. These are the classics that line up ragtime with the Masters of all time. Here is the genius whose spirit, though diluted and polluted, was filtered through thousands of cheap songs and vain imitations which have done much harm to the reputation of real classic ragtime.

These numbers are the American Creation and the marvel of musicians in all civilized countries.

They are NOT NEW and they NEVER will be OLD. The oftener they are heard the better they are liked.

And this what the message said,  
"There's only one classic rag house."
